Scott,

Is there a short answer to the reporter's follow-up question?

### QUESTION

Based on your explanation, can toxic chemical releases be described as toxic waste? It sounds like the answer would be yes, since you wrote that the list covers "toxic chemicals contained in wastes disposed on or in the land"

## Ex. 5 - Deliberative

Hello Skip --

Thank you very much - great timing!

Based on your explanation, can toxic chemical releases be described as toxic waste? It sounds like the answer would be yes, since you wrote that the list covers "toxic chemicals contained in wastes disposed on or in the land" -- but I just want to make sure.

Thank you,  
Kendra
